Global Scale of English

Fast-track your
learners' progress

The Global Scale of English (GSE) is the beating heart of the Pearson Connected English Learning Programs. Designed to build confidence, the GSE helps you understand where learners are on their unique learning journey with unparalleled clarity.

The GSE is the result of extensive expert research. It extends the Common European Framework of Reference (CEFR) to assess different types of learner on a simple 10–90 scale.

With the GSE, pre-primary, primary, secondary and adult learners can pinpoint their proficiency in all of the four key language skills: speaking, listening, reading and writing. Teachers can then set personalised goals for every learner, guiding their next steps and accurately measuring their progress along the way.

It's the first of its kind. A truly global standard in English language learning.

Find out more about the GSE, get helpful resources and access the free teacher toolkit at [pearsonenglish.com/gse](https://www.pearsonenglish.com/gse).

Pearson English Connect

The new way to teach English

Pearson English Connect is a game-changing platform giving you the ultimate flexibility in English language teaching. Enrich paper coursebooks and increase your learners' motivation with games, extra activities and more available on the user-friendly digital platform.

Our mission is to make online teaching as effective as in-person. It's why we've made sure teachers can share content directly with learners and see their progress in real time, from which questions they're answering, to who is finished or struggling. Optimised for mobile and desktop, learners can participate in classes and complete homework wherever they are.

“ Pearson English Connect (PEC) is a superior platform that adds value to our business because our learners are happy and make progress. My message to teachers is that you are doing your learners a disservice by not using PEC. Why would you want to use another platform when PEC is so much more engaging? ”

Guadalupe Salazar,
Pedagogical Manager
Academia Education.

Fully interactive digital experience for the English classroom

Pearson English Connect makes teaching using a digital component effective and easy. Enhance the classroom learning experience by projecting the platform on a screen, assigning online homework and uploading your own content.

Everything you need in one place

With one interface for both teachers and learners, Pearson English Connect keeps things simple. You can teach, interact with learners and monitor progress all in one digital space, helping to organise your lessons and save you time.

Build your learners' confidence

Use interactive features to engage with your learners and monitor individual progress with linked lesson reports and grade books, giving them the help they need, when they need it.
